

## THE RETAIL EVOLUTION

In the same way that Caribbean Housing Limited has pioneered community living in Trinidad and Tobago for more than fifty years, it is reinventing the Caribbean shopping experience with Brentwood Mall.

Much more than a shopping centre, Brentwood Mall is designed to be the cornerstone of the surrounding Brentwood and Brookhaven neighbourhoods — vibrant, sought-after communities in central Trinidad with a primary catchment area of about 25,000, and subsidiary markets that number close to 270,000.

Convenient, hassle-free, and easily accessible to an ever-extending community, at its core, Brentwood Mall is about people. Connecting them. Inspiring them. Bringing together homeowners, families, professionals, and businesspeople to create new and exciting opportunities.

It's an alchemy that channels the right mix of retail, restaurants, offices, entertainment, and essential support services into a safe, inviting space that is modern, yet retaining its charming Caribbean flair. This progressive, integrated blend of fun and work is the mall experience of the future — and it will be here by mid-2020.

*Be a part of it.*
